

HOW IT WORKS

RARELY have we seen a person fail who has thoroughly followed our program. **EXTRA. EXTRA READ ALL ABOUT IT!!!** People who do not recover are people who completely give themselves to the program and women who are institutionally incapable of being successful. There are many unfortunates. They are not seem to have been born that way. They are natural grasping and drive in a manner of living which demands rigorous honesty. Their chances are less than average. There are those, too, who suffer from grave chronic and mental disorders, but many of them do recover. They have the capacity to be honest.
