

Web Admin report

March 2021

Panel 71 – Area 53

We have very busy working with our Mini-Conference committee on our first ever virtual conference. I would like to extend a very special Thank-You to our Alt-Web Admin, Kayla & the group of tech volunteers, for stepping up to the challenge. Countless hours have been spent trying to ensure we have a quality weekend.

Now that this first hurdle is behind us, we will be getting our advisory committee up and running. We also have a few projects planned, including working with the Archives Committee to update their page with new content.

If you have any Ideas for the Area, A committee, or District pages PLEASE let us know, REMEMBER the web page is for ALL of us, so your input is important!
