

2021 VIRTUAL MINI-CONFERENCE REPORT

Online: March 12-14, 2021

A blurred photograph of a busy hallway. The wall is a vibrant yellow with a series of black arched lines that create a rhythmic pattern. People are walking in various directions, their figures blurred to convey a sense of motion. The floor is light-colored with a grid pattern. The overall atmosphere is one of a modern, active educational environment.

Mini-Conference: Comments

liked being able to pick and choose to fit my schedule

Excellent work and cooperation from the tech volunteers.

Time and experience practice makes progress

More time for voting and reporting.

Not sure

Good balance of levels of experience included.

Great event - nothing comes to mind for improvement

More time for voting

Should of allowed enough time so each committee could discuss their agenda items. to me that's the most important part of the conference

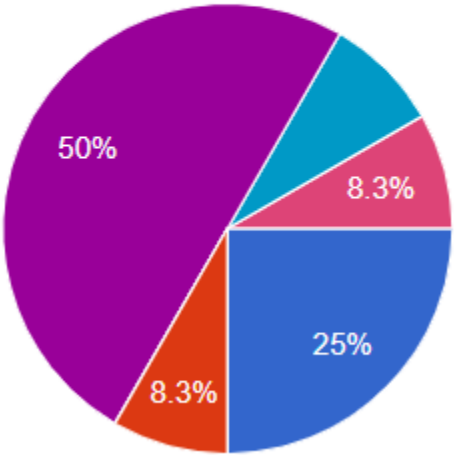

Assembly should not follow a very very long weekend of mini conference. We are all exhausted and it causes us to not focus on the important issues at hand at the assembly. We just end up wanting to get it done and over with
