

DCM Committee Report
Area Assembly - March 13, 2022

Meeting held via Zoom on January 9th, 2022

In attendance were 9 DCMs, and 6 others of various Area service positions. Everyone introduced themselves, the DCMs reporting about their respective districts - notable events, and concerns.

Ed A., Alt-Delegate and Mini-conference chair, presented info about Mini-conference, announcing that registration was open. Joe M. requested that we consider helping out at the registration desk.

Sam K., Treatment Facilities Chair, explained the objectives of this committee - informing us that groups can connect through Treatment Representatives; parts of Area 53 could have regional coordinators to help facilitate meetings in treatment centers . Also, Groups can financially contribute to this committee directly.

Dan S., Registrar, explained Fellowship Connection, emphasizing its importance to the DCMs as a tool to connect with their district's groups. Also, if info therein is inaccurate, DCMs could help correct and update this database.

New business was solely concerned with March Assembly District reports and the constraints on time. We voted on whether GSRs should report, as well - unanimously agreeing they forgo their reports and forward any pertinent items to be included in their respective DCM's district report (this decision has seen been overturned - GSRs will report).
